Kind Atten : Mr. Ravindra B. Pillay.

Dear Sirs,

Thank you for coming to Ravalgaon & giving training to our people for the Programming of CNC Lathe.

It was theoretical as well as practical & your cautiousness in telling the people towards safety of the Machine while programming & doing the job was really appreciable. It was very nice & useful to us & we are confident that our team will start the programming with this background.

We hope, this will surely help us in future also.

Thanking you,

Yours faithfully,
